President B. C. Borden,

Mount Allison University,

Sackville, N.B.

Dear President Borden:

Mr. Raymond C. Dearle has been on our staff in Physics for a few years and I know that Professor McLennan, who is absent, holds him in high regard. He was given a Fellowship a year ago for research work and some of the results of his work have been published. This year also Professor McLennan has recommended him for a position on the teaching staff. I should think that if you could get Mr. Dearle he would be very suitable for your position in Physics.

With kind regards, I am,

Yours sincerely,

President.
